Summary

Software Engineer skilled in full-stack web development, DSA in Java. Experienced in building responsive applications using React.js, Node.js, Express.js, MongoDB, and REST APIs, with strong problem-solving and software development fundamentals.

Skills

Programming Languages: Java, JavaScript, TypeScript.
Problem Solving: DSA in Java, LeetCode & GFG (200+ Problems Solved).
Frontend: HTML5, CSS3, React.js, Vite, Tailwind CSS, Monaco Editor.
Backend: Node.js, Express.js, REST APIs, API Integration, Authentication, JWT, CRUD Operations, Prisma ORM.
Databases: MongoDB (Atlas), PostgreSQL (Neon), SQL, Database Design.
AI & Third-Party Integration: Web Speech API , AI Model Integration, jsPDF, Sandbox Execution (Judge0).
Core Concepts: OOPs, DBMS, Operating Systems, Computer Networks.
Tools & Technologies: Git, GitHub, VS Code, Postman, Vercel, Render, Firebase, Jira,Linear.

Projects

HireReady AI Interview & Placement Simulator (Live) | *React, TypeScript, Node.js, PostgreSQL, MongoDB* GitHub

- **Developed** a full-stack AI interview platform simulating real **Technical (DSA)** and **HR rounds** with voice interaction and real-time feedback, bridging the gap for placement preparation.
- **Engineered** a dual-database architecture (**PostgreSQL** for transactional state, **MongoDB** for AI transcripts) and an **Approach-First** coding flow using **Monaco Editor** and **Web Speech API**.
- **Deployed** the application on **Vercel** and **Render**, integrating an automated **ATS resume scanner**, **server-side weighted scoring**, **HttpOnly JWT** security, and dynamic **PDF certificate** generation.

IRCTC Website Redesign (Live) | *React, JavaScript, CSS, firebase, API Integration* GitHub

- **Redesigned** the IRCTC train booking interface using **React** and **Tailwind CSS**, engineering a fully **responsive UI** to solve cross-device usability issues.
- **Architected** a modular frontend using **reusable components** and clean code structures, while **integrating** REST APIs to dynamically fetch real-time train schedules and seat availability.
- **Optimized** page load performance and structured the application for better readability, navigation, and **accessibility-friendly design**, significantly enhancing the overall **user experience**.

Achievements & Certifications

- **Hackathon Winner – INNOVERTEX (2025):** Secured 1st position for developing a full-stack application with real-time functionality and modern UI design. Link
- **7x National Hackathon Finalist:** Qualified as a finalist in multiple national-level hackathons by developing innovative software solutions and presenting technical ideas effectively.
- **Best Speaker Award:** Recognized for outstanding presentation, communication, and technical explanation skills during academic and hackathon events.
- **Decode Java+DSA 1.0 – Physics Wallah (2026):** Successfully completed the Java and Data Structures & Algorithms program, strengthening problem-solving and algorithmic skills. Link
- **Delta – Full Stack Web Development – Apna College:** Successfully completed the Delta Full Stack Web Development course covering modern web development technologies and full-stack application development. Link

Education

I.K. Gujral Punjab Technical University (IKGPTU) **2023 – 2027**
Bachelor of Technology (B.Tech) in Computer Science and Engineering *Current CGPA: 7.50 / 10*
